

An Open Letter

Raymond, Alberta.

April 17th 1945

In view of the remarks of Mr. Vance concerning the operation of his dairy within the town limits and the fact that it was one of several residing near his dairy who complained to the town officials about the stench emanating from that source I would like space in your paper Mr. Editor to give my views.

In the first place Mr. Editor a residential section is not the place to operate a commercialized dairy. For while I am sure Mr. Vance tries to keep his barns clean it is not possible to keep down the odor coming from wet floors and other unpleasant odors associated with it. In warm weather the vapor rises and moves with the breeze right down among the residences located in the wake of the wind.

Constable Pittaway and others can verify that the odor could be detected from the street half a block east of the dairy.

Mr. Vance stated he was willing to move his herd providing others would move their cows out of town. Since he shows a willingness to cooperate let him reduce his herd to two cows only. Under prevailing conditions there are no restrictions against the number of cows anyone may keep. Here is an opportunity for the Town to take steps to reduce the size of any herd within the town limits.

As stated by the inspector there is no law in the Province against

disagreeable odors as long as barns are kept according to governmental requirements. I have no personal grievance against Mr. Vance but I definitely have a complaint against the operation of a commercialized dairy in residential sections regard less of who operates them and I always will.

Now that a report has been made of sanitary conditions in these colonies I think it is very timely that all dairies operating and selling milk to citizens of Raymond be required to submit a report of the last veterinary tests.

Are people being supplied milk from Bangs diseased cows? Bangs disease (Undulant fever) in humans is reported to be incurable. Are the kiddies of our town, to say nothing of grown ups being supplied milk from cows which according to recent tests have Bangs disease?

Now that the milk question has been brought into the columns of this paper a report by all dairies should be requested. If these reports are not made then it is up to us as citizens to require the supplying us milk to give us an honest report of the findings of the veterinary.

Incidentally, there is no law against selling such milk in Raymond but Town authorities can and should pass a by law to stop the sale of milk from cows having either Bangs Disease or T. B.

W. C. Stone.

LAC Bruce Heggie arrived home Thursday morning for a short leave. He must report back on Monday morning.

NEWS NOTES

Maclean's of April 15th contains a long article by Hon. Solon E. Low in answer to 33 questions put to him by Blair Frazer. It is well worth reading by everyone.

A. E. Hancock was in the Wrentham country on Wednesday and brought home the steam boiler he purchased there recently for his pasteurizing plant. He said the high west wind was a real nuisance to the moving of the boiler.

Edgar J. Golden Snow of the Bishopric was the speaker in the First Ward Sacrament meeting on Sunday evening last and gave an interesting report on the recent Conference in Salt Lake City. There was a large crowd present.

The Raymond 2nd Ward concluded a very successful Era drive Wednesday night when their total reached 301 subscriptions, the same as was made last year. This is considerable more subscriptions than the quota of Eras for the entire Taylor Stake and those in charge are certainly to be commended.

Keith Bicklow was home on leave over the week-end from training in Calgary.

If you haven't bought that bond yet, do it NOW. Don't let our armies, navies and airforce down in this last great hour of victory.

J. W. Evans was taken from the Hospital to his home on Monday of this week and is convalescing there after his serious illness. He is still far from being well.

F. O. Graul Spackman was home on a short leave this week and is leaving Monday to report back to Winnipeg and from there for another posting overseas with the R.C.A.F.

HERE'S MY FEED PROBLEM

In what proportion should I mix my farm grains with "Miracle" Sow and Starter Supplement?

HERE'S THE ANSWER

For sows during the gestation and nursing period feed one part "Miracle" Sow and Starter Supplement to seven parts farm grains. "Miracle" Sow and Starter Supplement gives better results because it's tested for food value.

• You have reason for just pride if you have done all you could do, on the home front, to support the gallant effort of our men in active service.

If you have denied yourself pleasures and comforts to buy Victory Bonds . . . you, too, have played a part in helping your country's war effort.

You have worked and saved and lent your savings to your country. Without this help from you . . . and from millions of her citizens, your country could not have maintained the prominent place she now occupies among the freedom-loving nations.

Canada has the use of your savings to help to win victory. (You will have this money to use for your own needs later.)

Perhaps you wish you could have done more. Well, you will be asked to do more. Men who have come back will tell you that there is lots to do yet. Canadians are on active service, on the fighting fronts. More money is needed to support their effort.

You are asked to keep on working and saving and you will be asked to put more savings into Victory Bonds. They are the best investment any Canadian can make; an investment that every Canadian should make.
